

# Unlock the Value of Office 365. Become More Productive. Realize your Potential.

Research tells us that 50% of digital productivity tools are wasted, and on top of that, 75% of training and 70% of change management attempts fail to create lasting change. There is a familiar cry for help: "We buy all this great stuff, but what now? Where do we go from here?"

**We have a better way:** Digital Enablement that is platform based and supports a continuous system of measurement, personalization, and engagement.

### What is the Nulia Works Platform?

The Nulia Works platform guides end users to attain and maintain digital productivity skills with data-driven insights. We measure success by doing—this is the foundation for driving personalized skill development and ongoing behavioral change in the flow of work.

### Why Digital Enablement?

- Gets users using their Office 365 suites
- Develops skills by doing, not passively learning
- Integrates into the flow of work, saving time and money

### Unlock Office 365 Value at Massive Scale

- Across job functions
- Across departments and industries
- Across applications

Enable the ROI promise of your digital productivity suites

### Boost Productivity, Create Digital Heroes

- Enable organization-wide digital productivity
- Build user confidence and drive change that lasts
- Measure success by doing, not by consuming information

Overcome resistance & embrace technology to the fullest

### Digital Enablement In the Flow of Work

- Always-on engagement at the moment of need
- Seamlessly integrates into the workday without disruption
- Continually evolving with business requirements

Continuous system of measurement, personalization, & engagement

**"The Nulia Works platform is the big missing piece overlooked by our industry."**

- Anthony Chiappetta, CEO, AMC Solutions

# The Nulia Works platform gets users using their Office 365 suites to become more productive on a continuous and sustained basis.

## Measure & Evaluate

*Powered by data intelligence*

- Tracks progress on skills and outcomes, providing personalized and organizational analyses of usage
- Captures your unique needs based on actual measurable behaviors
- Provides progressive levels of mastery: User, Producer, & Master

## Personalize & Guide

*Powered by AI, ML, and Bots*

- View full skill development overviews with targeted recommendations based on profiles and persona
- Provides users with highly tailored activities, skills, outcomes and pace
- Always on 24/7 engagement that meets you where you are

## Engage & Reward

*Powered by the experience engine*

- Provides support and encouragement
- Motivates by unlocking achievements
- Earn industry recognized badges

## Join the Digital Enablement movement.

### Our promise to you

We bridge the gap between the perceived promise of digital productivity suites and actual digital productivity, unlocking trapped value by getting users using.

## Digital Enablement is a Must Have for Every Business

- Buying productivity suites is just not enough
- Traditional training, adoption and change management do not work
- Digital Enablement unlocks the maximum ROI

## Why Nulia Works?

Our mission is to unlock the value of organizations' Office 365 suites, driving skills development and behavioral change in the flow of work. The Nulia Works platform works in conjunction with other more traditional Microsoft-curated training and change management practices. The difference is that true digital enablement is platform based, scalable, data-driven, and personalized.
